1258 NW 3rd Ave, Gainesville, FL 32601

## EDUCATION

### University of Florida, Gainesville, FL

Aug 2022- Expected graduation May 2026, Full Time

Currently pursuing a Neuroscience Major and minor in Health Disparities on a pre-medical track. Engages with other students in laboratory environments that make use of programs like MiniTab and ArtofStats to produce and investigate different statistical tests and procedures.

### Western High School, Davie, FL

Aug 2018- Jun 2022

Graduated with an unweighted GPA of 4.0 and a weighted GPA of 5.417.

## ACTIVITIES

### Pioneer, Research Student, and Alumna/Pioneer Cohort Advisor (PCA)

June 2021 - Sept 2021, 10 weeks per year, 18 hours per week

Actively participated in educational sessions with Dr. Carole Gibson to study SARS-CoV-2 before writing a grant proposal on the MID of Covid-19. As an alumna, attend panels with current students to provide advice on how to reach their research goals and push themselves to their highest potential; discuss the basics of college admissions; work with a small group of alumni to organize virtual events that connect students across the world, providing them with insight into the program and how to stay involved after its completion; and collaborate with experts in industries of interest to further personal education and produce podcasts and social media outreach that assist in bringing these conversations and tools to others not involved in the Pioneer network. As a PCA, coordinate and oversee all aspects of an academic program, including communication with professors, students, and parents. Consistently provide academic support and training, monitor program progress, student performance, and faculty involvement. Conduct interviews, assist admissions, handle administrative tasks, and utilize the learning management system for timely student assistance.

### SCANN Lab, Undergraduate Research Assistant (RA)

Aug 2023 - Present, 3 times a week, 10 hours per week

Collaborate with graduate students working at the lab, including Ece. Assist in running participants for Ece's virtual reality project, which focuses on spatial navigation in immersive and desktop environments. Attend weekly lab meetings where the team updates the group on their progress in the lab, and towards the end, actively participate in giving construction feedback on a lab member's presentation.

### Chi Omega Make A Wish, Team Lead for External Executive Board

Sept 2022-Present, Once a week, 3 hours per week

Work with a group of five other sisters to organize the day-to-day responsibilities-- announcing script and schedule, writing emails to alumni and parents, telethon organization, flyer distribution, and event complication management that allow the philanthropy organization to raise 55,000 dollars annually, on average. Run the merch table, google forms, referee and rule organization for the annual Sandblast fundraiser, where an average of 25,000 dollars is raised for either MAW as an organization or a specific MAW child suffering from a critical illness.

### Flipping the System, Ambassador

Jan 2023-Present, Twice a month, 1 hour per week

Serve as an ambassador for Flipping the System, an organization focused on raising awareness about sexual assault and violence on campuses and globally. Responsibilities encompass diverse roles, like spearheading fundraising initiatives, facilitating impactful outreach through tabling events, and contributing to social media updates and posts. The role reflects a profound sense of social responsibility and genuine concern for community safety. The overarching goal is to collaboratively build a world where individuals can flourish devoid of the shadows cast by sexual assault and violence.

### MediGators, Student

Sept 2022 - Dec 2021, 14 weeks per year, 1 hour per week

Participated in a virtual program for an immersive experience in the field of medicine. Interacted with medical professionals from various specialties, participated in case studies, viewed operating room videos, and learned about career paths. Gained insights into the realities of the profession and explored specific areas of interest. Earned a certificate of completion at the end of the semester with 40 pre-health shadowing hours.

### Project Makeover, Staff

Sept 2022-Jun 2023, Once a week, 2 hours per week

Cooperate with fellow UF students to donate time and skills into “making over” elementary schools in Alachua County, to create a more positive and fun learning environment for young children in disadvantaged areas. As a staff member, collaborate with a group of about 30 other students to organize school retreats and engage in social media outreach to raise funds for makeovers in the spring and mini makeovers in the fall.

## **SKILLS**

Certified in First Aid, CPR

Certified Patient Care Technician

Electrocardiogram Certification
